

Shenandoah Rd & Fiddletown Rd Intersection

Project Description

The project will shift the Shenandoah Rd. alignment northwest relative to the current alignment. A new leg of Fiddletown Rd. will be constructed to intersect Shenandoah Rd. that will maximize the horizontal length of the new leg to provide more satisfactory geometric conditions. Shenandoah Rd. will remain a free flow through movement, while Fiddletown Rd. is proposed to be stop controlled at the intersection with a wide shoulder area for vehicles making right turns toward Fiddletown. Shenandoah Rd. will have a dedicated left turn pocket at the intersection.

Schedule

2013	2014	2015	2016	2017	2018	2019
Schedule is not available at this time.						

Costs		Funding		Milestones	
PE:	\$ 234,783.00	HSIP*:	\$ -	RFA for PE Approved:	No
RW/Util:	\$ 32,917.00	Local Match:	\$ -	ENV Clearance Date:	No
CON:	\$ 1,173,915.00	Unmet Need:	\$ 1,617,702.00	RFA for Right of Way:	No
CE:	\$ 176,087.00			RFA for Utilities:	No
				RFA for CON Approved:	No
				CON Completed:	No
Total:	\$ 1,617,702.00	Total:	\$ 1,617,702.00	Closeout:	No

Project Manager:	Jered Reinking, Senior Civil Engineer	(209) 223-6226	jreinking@amadorgov.org

Project Status

The Amador County Board of Supervisors unanimously approved moving ahead with applying for an Highway Safety Improvement Program (HSIP) grant which was submitted on July 26, 2013. The Board also chose design alternative #6 as their preferred alternative which includes a left turn lane to Fiddletown. Project is currently waiting for results of the HSIP grant application.

Green = On Schedule **Yellow** = Faces Impending Hurdles **Red** = Encountering Delivery Hurdles **Blue** = Projected Constructed
